

1. Technology of Friction Welding by Mixing Composite & Heterogeneous Materials (by Shamil Atuev and Radmir Rzaev).
2. Play & Grow Sports Training Simulator Based on Mobile Devices (by Olga Vorontsova).
3. Adaptive Game Complex with Biofeedback System to Rehabilitate People with Special Needs (by Olga Vorontsova).
4. Electronic Development Manual for Children of Preschool Age (by Viktor Dorofeev).
5. New Immunotropic Remedy “Immunophlan” Based on Biologically Active Components of Lophanthus Anisatus Benh Extract (by Ekaterina Shustova).
6. Multifunctional Microbiological Insecticide Preparation “PhytoStreptoSoil” to Control Pests & Prevent Plant Diseases (by Lilit Grigoryan and Yulia Bataeva).
7. Pollution-Free Biopreparation “SOLANOPHYT” Based on Steroid Components of Solanum Nigrum (by Darya Vilkova and Oksana Astafyeva).
8. Information Analytical System “Student’s Portfolio” (by Taisiya Shinyaeva).
9. Information Analytical System “Farm Administration” (by Yulia Smirnova).
10. Composite Biological Fertilizer “AlgoSoil” Based on Microfossils to Enhance Quality of Agricultural Products, Crop Capacity, and Protection from Plant Diseases (by Maria Fomina and Yulia Bataeva).
11. Technology of Biological Purification of Salted Sewage Water of Food Industry with Microorganism Consortium (by Madina Satkalieva and Yulia Bataeva).
